NO-FEAR

Network Of practitioners For Emergency medical systems and cRitical care

NO-FEAR is a 5-year (June 2018 – May 2023) Coordination and Support Action project that will bring together a pan-European and beyond network of emergency medical care practitioners, suppliers, decision and policy makers to collaborate and exchange knowledge, good practices, and lessons learned. Members of the network will have the opportunity to work together and collaborate to develop a common understanding of the innovation potential that fills operational gaps and pinpoint areas for future research. This multi-disciplinary, multi-national, and multi-sectorial collaboration will be supported by virtual tools, including the NO-FEAR platform and networking events (e.g., workshops, demonstrations, exercises) every 6 months.
